HANDLE VIA TALENT

NUMBER	NAME	POSITION	JUSTIFICATION
1	[REDACTED] 25X1A9a	Chief, Overt and Covert Branch, Collection Staff 25X1A9a	As Chief of the Overt and Covert Branch, [REDACTED] is the focal point for all OSI liaison and operational planning activities with the DD/P. At present he is engaged in giving support to the planning of two long range DD/P operations. These projects are based in part on the results of Projects AQUATONE and HT AUTOMAT. It is conceivable that in the future other DD/P projects will result from the AQUATONE Project. Because of this relationship, and the fact that certain key DD/P people with whom he is presently working are cleared for TALENT and AQUATONE, this Office believes it to be most desirable from a functional and security standpoint to clear [REDACTED] for access to AQUATONE and TALENT material as soon as possible. 25X1A9a
1	[REDACTED] 25X1A9a	Chief, Current Support, Intelligence Production Staff 25X1A9a	The mission and functions of the Production Staff/SI include responsibility for liaison with OCI and the National Indications Center. [REDACTED] is at present the principal channel for this OCI and N.I.C. liaison. Experience has shown that the sensitivity of this position and the frequent need for immediate communication on matters bearing directly on Project HT AUTOMAT require that the incumbent be TALENT cleared.
